

Sunway Construction

Mission

Sunway Construction Sdn Bhd is one of the nation foremost builder and construction company under the umbrella of the Sunway Group of Companies. Sunway Construction offers complete turnkey design and construction services, with prominent recognition in the fields of building construction, civil engineering, infrastructure, mechanical and electrical engineering as well as machinery and site equipment rental. Recent additions to the Sunway Construction Group including precast, piling and stone materials have further strengthened our capability as an integrated builder, in Malaysia and the region.

Sunway Construction Sdn Bhd requires a signage system to display their corporate profile, newly completed projects as well as their daily activities and events.

Solution

6 units of SpinetiX HMP100 are installed in various locations. They choose SpinetiX for its functions and integration ability. One of the SpinetiX is integrated with the motion sensor to trigger the display when someone is presence at the lobby. When no one is around, the display will go to standby mode to conserve energy. They also find the HMD extremely user friendly and features packed for even advance content creation. The content is managed and upkept by the admin department.

Installations

- 6 units of SpinetiX HMP100
- 6 units of LCD display
